Dear Valued Buyer,

I hope this message finds you well!

Following up on my previous message, I'm thrilled to introduce **4 exceptional companies** highlighted by KOTRA for their outstanding achievements and transformative solutions. These companies are part of the Korea Pavilion at CES 2025, showcasing innovative technologies that are shaping the future across various industries.

Meet the 4 Spotlitged Companies:

1. **Carrotphant Inc.:** Specializes in Digital Twin and AI-based digital records software and 3D data utilization for groundbreaking media art solutions.
2. **Curiosis Inc.:** A pioneer in biotech equipment and laboratory automation, delivering innovative solutions for cell therapy and synthetic biology.
3. **Sign Telecom Co., Ltd.:** A leading provider of LED displays and AI edge cameras with 35 years of expertise in cutting-edge R&D and production.
4. **WORLD CNS CO., Ltd.:** Recognized for its innovative safety and lighting solutions, including award-winning CCTV and LED display systems.

Global Pavilion 50623-57

ORGANIZED BY 

carrotphant. Inc.

carrotphant

517, 87, Cheongam-ro, Nam-gu, Pohang-si, Gyeongsangbuk-do, Republic of Korea (37673)

owen@carrotphant.com

<http://www.carrotphant.com/en/>

carrotphant develops digital records software based on Digital Twin and AI technologies.

Additionally, we research and develop 3D data DB utilization, Digital Media Art, Holography-Interactive, etc.

carrotphant delivers complete value with unrivaled technology and provides high-quality solutions that enable communication and empathy through creative ideas.

Global Pavilion 50623-56

ORGANIZED BY 

Curiosis Inc.

CURIOSIS

www.curiosis.com

info@curiosis.com, layla@curiosis.co.kr

Curiosis Inc., established in 2015, is a pioneering biotech company specializing in laboratory automation solutions. We develop, manufacture, and distribute advanced life science research equipment and medical devices for domestic and international markets.

Building on our core expertise in mechanical engineering, biophysics, and electrical engineering, we create innovative solutions for cell-based research processes. Our focus areas include cell therapy and synthetic biology, where we deliver automated systems that significantly enhance production efficiency. We also manufacture disposable consumables to optimize user convenience and ensure biological safety.

What sets Curiosis apart is our rapid prototyping capability, enabling us to swiftly respond to market needs with optimized solutions. Through our commitment to technological excellence and customer satisfaction, we strive to become a leading force in the bioindustry while advancing human health and scientific research.

Global Pavilion 50623-55
