EXPLORE

THE BRITISH VIRGIN ISLANDS BELOW THE SURFACE!

This extraordinary setting provides outstanding underwater visibility, healthy coral and a wide variety of exotic dive sites, with air temperatures between 80 and 90 degrees Fahrenheit year-round. Countless reefs, towering coral pinnacles, underwater caves, lava tunnels, canyons, massive boulders and grottoes are strewn across this vast submerged shelf, creating a choice of dive sites that range from shallows for the novice snorkeller to dramatic sea caverns and extraordinary shipwrecks for the experienced scuba diver.
