Hi [Name],

I see you’re covering the IMF/World Bank meetings in Marrakech?
Ambassador Majid Al Suwaidi, Director-General of COP28, is in Marrakech. If you’re available tomorrow, we would be eager to connect you with him to discuss outcomes of the meetings and efforts underway to make both adaptation and mitigation climate finance more available, accessible, and affordable to emerging markets. If tomorrow doesn’t work – perhaps one day in the next week or two we can find a time?

Fixing global finance is pivotal to achieving the Paris Climate Agreement – keeping 1.5C within reach, while protecting the people, lives, and livelihoods of those most vulnerable to the effects of climate change, especially those in emerging markets. Accordingly, it’s a key priority across the COP28 Action Agenda.

Ambassador Majid would share his perspective on progress in reforming global finance, what steps need to be taken in the coming months, and his outlook on what may be achievable at COP28 and beyond.

Let us know if you might be available?

Thanks, [Name].
