Hi [Name],

In case you are covering this, sharing below a statement from COP28 President-Designate Sultan Al Jaber in response to Multilateral Development Banks (MDB) exceeding their goals on climate finance.

Please let me know if you have any questions.

Many thanks,

++++

"I’m encouraged to see the joint report released by MDBs showing nearly $100 billion was delivered for adaptation and mitigation climate finance in 2022, with half of this going to low-income and middle-income economies. This, along with the joint statement released by MDBs committing to greater action ahead, shows that the calls of the global community are being heard.

As we look towards COP28, we must still do more. We must build on this momentum to keep 1.5C within reach and enhancing climate finance will play a crucial role. We look forward to joint MDB action at COP28 that sets a higher level of ambition commensurate with the needs of tomorrow, to ensure climate finance is available, accessible and affordable." – Dr. Sultan Al Jaber, COP28 President-Designate
