

7-Day Countdown to the Main Conference: Here's a Sneak Peek!

"2023 demonstrated the power of collaboration and new beginnings as we collectively reimagine the future of fintech. I look forward eagerly to the impactful discussions that will help guide us toward an even stronger and more innovative path ahead."

**King Leung, Head of Financial Services and Fintech
at Invest Hong Kong**

As we approach the main conference of the eighth edition of Hong Kong Fintech Week 2023, the excitement continues to build.

With the theme "Fintech Redefined", our flagship conference will encapsulate the industry's paradigm shift to a new definition of FinTech where new models, rules and value creation will emerge, of which Hong Kong is at the beating heart.

We return with a bigger than ever conference and are thrilled to unveil exciting announcements that showcase our unwavering commitment to positioning Hong Kong as a leading fintech hub. This year's program features insightful panel discussions with prominent figures, exploring future fintech development across six themes:

1. Global regulation and focuses such as sustainable and green finance
2. Funding and venture capital as well as family office investments
3. Exploring the realms of artificial intelligence (AI), Web3 and emerging frontiers;
4. Unveiling the latest opportunities across the Greater Bay Area
5. Hong Kong's innovation journey
6. Business showcases

We recognise the importance of a robust Web3 ecosystem, and as such, we have curated a line-up of heavyweight industry speakers who are eager to share their expertise and insights on this transformative

technology. Their presentations will shed light on the potential of Web3 in revolutionising the financial landscape and driving innovation in the industry.

Prepare to be captivated by various metaverse experiences that employ cutting-edge technologies to create immersive and educational engagements. These experiences will demonstrate the possibilities of the metaverse in connecting businesses and promoting Hong Kong culture through virtual games and augmented/virtual reality.

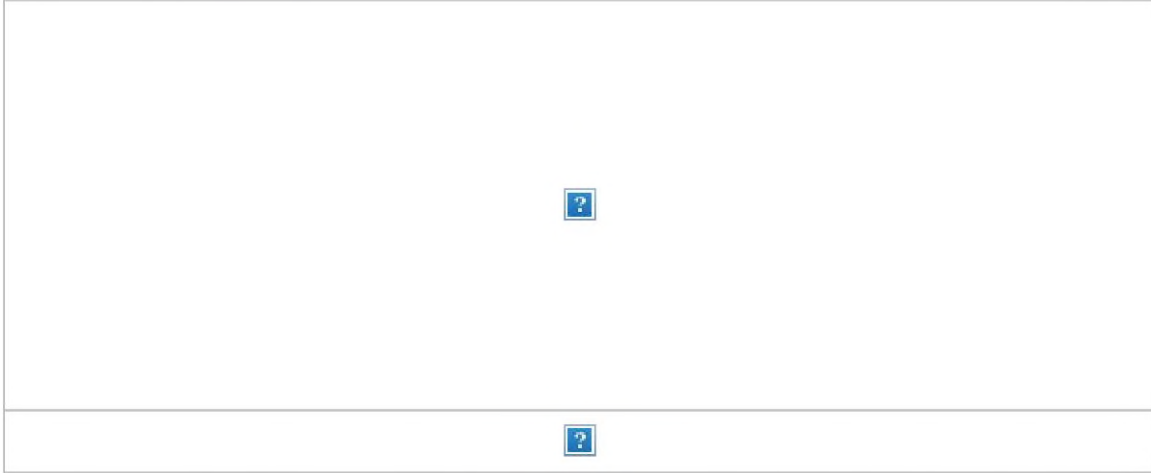

On Day 1 (November 2), join us at Centre Stage at 9:15am as the Honourable Mr John Lee, Chief Executive of Hong Kong SAR, kicks off the conference with his opening keynote. This will be followed by a keynote session at 9:35am by Mr Christopher Hui, Secretary for Financial Services and the Treasury of Hong Kong SAR, and at 12:05pm by Mr Paul Chan, Financial Secretary of Hong Kong SAR. Additionally, at 1:30pm, do not miss the session celebrating the 1st anniversary of Hong Kong's digital assets policy announcement. Dr Jimmy Chiang, Acting Director-General of Invest Hong Kong, will share the city's progress over the past year and present major STO projects that demonstrate how the fintech sector has since embraced Web3 to create new business models, opportunities and contribute to economic development.

Finally, the grand finale of the Global Scaleup Competition promises to be an eyeopening showcase. We will have the privilege of witnessing the 13 finalists pitch live for the highly coveted title of "pitch winner" across fintech, AI and Web3 categories. Selected from in-person semi-finals across 12 cities around the world plus one virtual event, these talented scale-ups will compete for the ultimate recognition. More information about the competition can be found [here](#).

Join us at the Hong Kong Fintech Week on November 2-3 for the Main Conference at the Hong Kong Convention and Exhibition Centre in Wan Chai.
