Hi [REDACTED],

I'm reaching out to see if you'd be interested in a meeting with Elaine Grunewald, the Chief Sustainability Officer of TONOMUS – the technology company building the world's first cognitive community at NEOM, the \$500bn project being built in Saudi Arabia near the Red Sea.

Elaine is at the forefront of TONOMUS's efforts to revolutionize the way future cities approach sustainability. As Head of the TONOMUS Venture Studio as well, Elaine can also shed light on how TONOMUS is helping to move climate tech from lab to reality by creating opportunities for investments in technologies that address the climate crisis in all its dimensions.

Please let me know if speaking with Elaine off the record is of interest to you, and I'll run it by her team.

Thanks for your consideration, and I hope to hear from you soon.

Best,

[REDACTED]
