

The unnamed bin Layeh water initiative

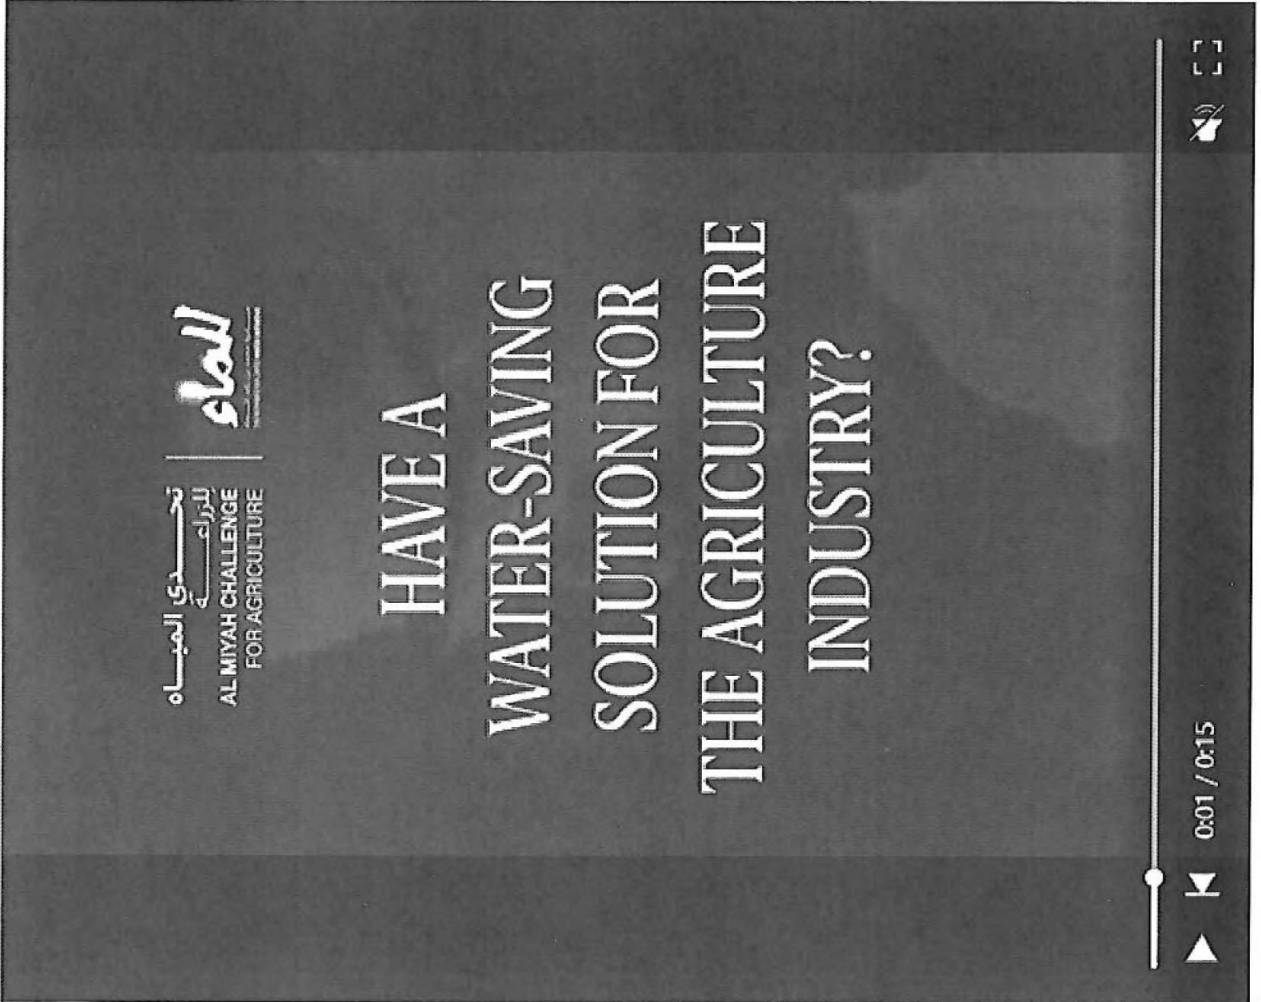

1,266 followers

Promoted

By 2050, without improved efficiency, water demand for agriculture could increase by 50%. Do you have an innovative solution to reduce water consumption? Pilot your water-saving tech in UAE farms, with the potential to scale to other arid regions, through Al Miyah Challenge for Agriculture. Apply now and use this launchpad to turn your idea into impact.

HAVE A WATER-SAVING SOLUTION FOR THE AGRICULTURE INDUSTRY?
