Ad Introduction Text

With a central location – and the home of the European Medicines Agency – the Netherlands life sciences ecosystem encompasses R&D, vaccine manufacturing, nuclear and regenerative medicine innovation, and more.

Companies in the Netherlands, like Microsoft and QuTech, are innovating quantum tech to revolutionize industries from transportation to medicine. The Netherlands' multi-stakeholder approach to smart technology meets major social challenges, making us a leading cybersecurity hub in Europe. Just ask FOX IT, Thales and Palo Alto why they invest in Holland. The Netherlands' multi-stakeholder approach to smart technology meets major social challenges, making us a leading cybersecurity hub in Europe. Just ask FOX IT, Thales and Palo Alto why they invest in Holland.

The Netherlands is committed to bold steps to achieve a circular economy and reduce greenhouse gas emissions to zero by 2050 through wind and solar energy innovation, smart grids and more.

Recognizing hydrogen as a missing link in the global energy transition, the Dutch are innovating smart, sustainable solutions for the future. The Netherlands' multi-stakeholder approach to smart technology meets major social challenges, making us a leading cybersecurity hub in Europe. Just ask FOX IT, Thales and Palo Alto why they invest in Holland. The Netherlands is committed to bold steps to achieve a circular economy and reduce greenhouse gas emissions to zero by 2050 through wind and solar energy innovation, smart grids and more.

Recognizing hydrogen as a missing link in the global energy transition, the Dutch are innovating smart, sustainable solutions for the future.

Top research clusters. Favorable policies. A thriving food ecosystem. The Netherlands has all the right ingredients to pioneer alternative proteins.

The Netherlands has some of the world's best electric vehicle infrastructure, offering the ideal test ground to prototype and test next-gen EVs.

With more than 15,000 industry experts and a complete value chain, the Netherlands' semiconductor ecosystem is a hub for groundbreaking innovation.

The Dutch quadruple helix unites industry, academia, government and society to create solutions together, redefining life sciences and health possibilities.

Fintech is moving fast – but the Netherlands is moving faster. Industry leaders and groundbreaking startups alike call the Dutch fintech ecosystem home.

Strongly committed to sustainability, the Netherlands is an ideal hub for companies to innovate chemical recycling and crack the code of circular plastics.

What makes the Netherlands one of the world's happiest countries – and an ideal location for businesses to tap into highly motivated talent? You'll have to come and find out.

Ranked first in material reuse rate and waste management, the Netherlands provides fertile ground for chemical companies to transition to a circular future.

Creative Collaboration for Sustainable Solutions in the Netherlands

Digitalization is transforming health care – and the Netherlands is a perfect testing ground for new ideas that can be implemented globally.

Digital Health Visionaries: Innovation Awaits in the Netherlands

Top research clusters. Favorable policies. A thriving food ecosystem. The Netherlands has all the right ingredients to pioneer alternative proteins.

Meet the Netherlands: A Plant-Based Future Powerhouse

Digitalization is transforming health care – and the Netherlands is a perfect testing ground for new ideas that can be implemented globally.

The Future of Medical Care is Advancing in the Netherlands

The Dutch quadruple helix unites industry, academia, government and society to create solutions together, redefining life sciences and health possibilities.

The Netherlands: Europe's Connected Life Sciences and Health Metropolis

Home to 19 of the world's top 25 chemical companies, the Netherlands is forging a sustainable, biobased future through bold ideas and powerful partnerships.

Sustainability and Innovation Find Perfect Chemistry in the Netherlands

With unparalleled digital infrastructure and highly skilled talent, the Netherlands is home to the world's top cybersecurity firms and international agencies for a reason.

Tap Into Talent, Knowledge and Innovation in the Dutch Cybersecurity Cluster

AI innovation to the power of three: in the Netherlands, companies, government and academia collaborate on the leading-edge of artificial intelligence.

Want to Pioneer AI for Social Good? Make It Happen in the Netherlands.

Home to Rotterdam, the world's smartest port, the Netherlands is a haven for companies to chart new solutions for the maritime industry.

Invest in the Netherlands: The Maritime Heart of Europe

Talent: It's the biggest question for companies planning to expand in Europe. Multilingual, highly educated and digitally savvy, the Dutch workforce is the answer.

In the Netherlands, Brighter Talent Fuels Bolder Business

https://investinholland.com/doing-business-here/industries/finance/?utm_source=linkedin&utm_medium=paidsocial&utm_content=sponsoredcontent&utm_term=campaign_variable&utm_campaign=dcinfia

As Europe's fastest-growing hub for finance innovation, tomorrow's finance future already thrives today in the Netherlands.

The Dutch Spark a FinTech Revolution

From grid operators like TenneT and Enexis, to knowledge institutions like Eindhoven University of Technology, to facilities like ElaadNL and KEMA Labs, the Netherlands is the place to innovate smart grid solutions that meet global energy challenges. And with the Dutch Ministry of Climate Policy and Green Growth setting the pace, the energy transition is moving swiftly throughout the country.

What's the key to Dutch smart grid success? Register for our webinar on Sept. 12 to learn more: <https://lnkd.in/g8khpP8> #InvestInHolland
 Are you looking to upgrade and optimize energy systems for a sustainable future? It's time to #InvestInHolland.

<https://lnkd.in/g8khpP8>

On Sept. 12, join our webinar to learn why the Netherlands is the best place to pioneer the global energy transition through smart grid solutions.

https://investinholland.com/event/webinar-smart-grid-developments-and-opportunities-in-the-netherlands/?utm_campaign=coschedule&utm_source=linkedin_company&utm_medium=paidsocial&utm_content=How%20the%20Netherlands%20is%20Making%20Energy%20Grids%20Smarter

Meet with the Invest in Holland team in San Francisco during the RSA Conference, May 6-9, 2024

WASHINGTON, May 6, 2024 /PRNewswire/ -- In the Netherlands, organizations around the country are working toward innovative solutions in cybersecurity, information security and technology, making the country a strong choice for cybersecurity investments. Companies considering expanding abroad can meet with the Invest in Holland team during the **RSA Conference** in San Francisco, May 6-9, 2024 to learn why global cybersecurity companies thrive in the Netherlands.

"In the dynamic landscape of cybersecurity, the Netherlands is an oasis of innovation and security. Our robust infrastructure, strategic location and forward-thinking policies provide an unparalleled ecosystem for cybersecurity companies to thrive and safeguard the digital realm," said Jaap Slothouwer, Executive Director of the Americas for the **Netherlands Foreign Investment Agency (NFIA)**. "This week in San Francisco, our team will meet with companies and experts to share how the Netherlands offers a fertile ground where innovation meets resilience, making it the ideal destination for cybersecurity companies to make their mark."

Home to one of Europe's leading security clusters, **Security Delta (HSD)**, the Netherlands is a smart choice when it comes to investing in cybersecurity innovation and collaboration. Companies, governmental organizations and knowledge institutions collaborate on innovative security solutions, making an impact in the Netherlands and beyond. International cybersecurity companies that invest in Holland – like **Keypasco**, **Red Trident**, **KnowBe4**, Palo Alto Networks and Sentinel One – are accelerating cybersecurity across the continent. Innovative digitalization in **the Netherlands drives the global security cluster** from fintech to life sciences & health.

The RSA Conference will bring together experts, professionals and thought leaders, similar to the public-private collaboration that sets the Netherlands apart from other European business locations. Visit the Netherlands Pavilion at Booth #1061 in South Hall or schedule a meeting with NFIA Sector Specialist Eric van Pelt during the RSA Conference to learn more about **the Netherlands' dynamic IT and Tech sector**.

NFIA offers free, confidential assistance to companies looking to establish or expand operations in the Netherlands with North American offices located in Atlanta, Chicago, New York City, San Francisco and Toronto. For more information, visit **www.investinholland.com** or contact **info@nfia.com**.

Tim Katsburg Named as New Director and Head of NFIA Atlanta

The Netherlands Foreign Investment Agency (NFIA) is pleased to announce Tim Katsburg as its new Atlanta Head of Office and Director. Tim writes:

“I began my journey with NFIA Atlanta in 2017, working closely with my predecessor, Boudewijn Barth, on FDI projects spanning from Florida to Texas until 2023. Following a rewarding year with the Dutch Consulate-General’s economic department, focused on trade development and the recent royal visit by our King and Queen to the state of Georgia, I’m excited to embrace this new opportunity and steer our NFIA office into its next stage of growth.

As my namesake and fellow Atlanta Director, Tim Buitenhuis, aptly said in last month’s e-newsletter: ‘The Dutch ecosystem punches well above its weight.’ Our skilled team stands ready to boost your global reach and make the Netherlands your driver of innovation and excellence.”

Contact Tim at tim@nfia.com or connect with him on [LinkedIn](#).
