ALLEGRO FORTE — The Faces of Czech Music

A captivating collection of
portrait photographs celebrating
the Czech Republic's greatest
talents in classical music and
dance.

Allegro Forte presents a unique
collection of portrait photographs
depicting the *brightest stars in
classical music and dance*. Created
in cooperation with the Year of Czech
Music, this project aims to take
classical music out of the austere
world of conservative concert halls
and bring it closer to the wider
public.

Allegro Forte is not only a celebration
of classical music but also an invitation
for people to discover the beauty of
music in everyday situations. The
creators have liberated classical
music from elitist frameworks,
presenting it as a living, dynamic,
and accessible art form that anyone
can experience—anytime and
anywhere.”
