

Get a piece of the European Union's near €100 billion research funding program!

You are invited to attend!

Learn about EU-funded scientific grant programs at our event:

EU-funded research & innovation projects with partners from the Americas and the Global South

taking place in New York City around the 9th Science Summit of the 78th UN General Assembly ([UNGA78](#)).

Date: Friday, September 22nd, 2023

Time: 09.30 am – 12.00 pm

Location: BayernLB, 560 Lexington Ave, 22nd Floor, New York

Register and view agenda on Eventbrite for this live event [here](#).
Space is limited. Register now.

Why attend?

- Learn how to take part in EU scientific grant funding for research in sustainability, cities, agriculture, digital, energy and oceans
- get involved in cutting-edge SDG implementation projects around the world
- hear from and connect with experts from ongoing EU-funded Research & Innovation projects from Germany, Canada, the U.S., Nigeria, and Argentina (projects include climate mitigation, climate-smart water allocation, clean biofuel production, and sustainable food systems)
- Keynote: Dr. Florent Bernard, European Union Delegation to the U.S. in Washington D.C.

Co-hosts:

German State of Bavaria, US Offices - New York ([Bavaria.org](#))

Providing cost free assistance to companies seeking to expand to Europe with a business location in the State of Bavaria, Germany's Innovation and Economic Powerhouse.

Bavarian Research Alliance - Munich ([BayFOR](#))

Providing comprehensive advisory on EU research and innovation funding and helping to find research partners in Bavaria Germany and around the world.

If you are interested in international cooperation under **Horizon Europe**, the EU's ambitious near €100 billion research and innovation program, this event will be an excellent opportunity to gather information and to network with experts. Horizon Europe aims to boost the economy, create jobs and improve lives. It funds ground-breaking research and innovation across many industries. The green transition plays a major role! Find more information [here](#).

The objective of the UN Science Summit is to promote and develop global cooperation in the field of science, in order to achieve an implementation of the **17 Sustainable Development Goals (SDG)** of the United Nations. The 9th Science Summit (12-29 September) will generally focus on collaboration, science and key UN initiatives, inclusive science, research infrastructure, and data-enabled science.

We look forward to meeting you on September 22nd in New York City!
