With Chip Design being at the center of technological trends and innovations in Bavaria, we look forward to helping you connect within this thriving ecosystem.

Connect with us live at Semicon at **BOOTH 5941** or anytime virtually to chat with our experts!

The place to be for Chip Design!

Bavaria, Germany, with capital city Munich, is Europe's hotspot for Chip Design and a leading location for the semiconductor and microelectronics industry. The state is a world-leading manufacturing industry supplier, and a leader in the automotive, mechanical and electrical engineering industries – 25% of Bavaria's GDP comes from the manufacturing sector.

The German economic and innovation powerhouse is renowned for highly automated factories, deep knowledge in process engineering, and one of Europe's top talent pool in engineering.
