My statement regarding the ongoing kidnapping, harassment and extortion in #Nigeria by a controversial police unit known as the Special Anti-Robbery Squad (SARS). #EndSARS 🇳🇮
#EndPoliceBrutalityInNigeria

"It is long overdue for leaders around the world to hold the Nigerian government accountable for its brutality and history of human rights abuses. The actions of SARS are illustrative of the systemic violent persecution that men, women and children throughout Nigeria face. While we appreciate the vocal support from the international community, this brutal regime must be stopped through action, not just words."
