

STATEMENT ON 12/20 CITIZEN LAB —ATTRIBUTABLE TO NSO SPOKESPERSON

This memo is based, once again, on speculation and lacks any evidence supporting a connection to NSO. Instead it relies on assumptions made solely to fit Citizen Lab's agenda.

NSO provides products that enable governmental law enforcement agencies to tackle serious organized crime and counterterrorism only, and as stated in the past we do not operate them. However, when we receive credible evidence of misuse with enough information which can enable us to assess such credibility, we take all necessary steps in accordance with our investigation procedure in order to review the allegations.

Unlike Citizen Lab, which only has 'medium confidence' in their own work, we KNOW our technology has saved the lives of innocent people around the world.

We question whether Citizen Lab understands that by pursuing this agenda, they are providing irresponsible corporate actors as well as terrorists, pedophiles, and drug cartel bosses with a playbook for how to avoid law enforcement.

NSO, meanwhile, will continue to work tirelessly to make the world a safer place.
