

Attributable to Ian McCaleb, spokesman for JinkoSolar (U.S.):

“As previously stated, Jinko strongly condemns the use of forced labor and does not engage in it in its hiring practices or workplace operations. The company has reviewed the three claims cited in the Horizon paper and found that they do not demonstrate forced labor in our facilities. To the contrary, Jinko has a strong track record of industry-leading workplace practices, which include employment at will, standardized premium pay, benefits and scheduled leave for all employees at our factories.”
