“Insurers need to advise clients managing big projects, events, airports, theme parks, shopping malls, etc. that drone incursions are a potentially big risk that can be minimized by being proactive.”

[Gilad Sahar](#), Business Director of our Counter-UAV division, recently caught up with Insurance Edge to talk about Eclipse — NSO’s innovative and unique counter-drone technology — and discuss the importance of incorporating drone mitigation solutions into insurance policies as threats from drones surge.

Did you know that before the COVID-19 pandemic, NSO Group, in partnership with Arava's regional education system, launched an educational initiative at Adam V'Adama High School and Shitim High School?

Through the educational program, NSO Group experts exposed students to the world of technology, imparting their knowledge and teaching the next generation of leaders about careers in cybersecurity and technology. Once our communities return to a sense of normalcy, we look forward to renewing this valuable educational program.
