On #YomHaShoah, we join international Jewish communities to honour the memory of our 6 million brethren who perished to the evils of the Nazis during the holocaust.

NSO had the privilege of hosting the acclaimed journalist and interviewer Roni Kuban, who told us how parts of the world have not learned the lessons of the holocaust. In his chilling lecture "The Secret", Kuban recounted the unfathomable tale of Szegedi Csanád, a modern day Hungarian Neo-Nazi who was forced to face the fact that he was a Jew, and not any Jew, but one whose grandmother had survived Auschwitz.

Today, this former anti-Semite has shifted 180 degrees and leads the life of an observant Jew.

Unfortunately, the most striking part of Szegedi's story is the vehement antisemitism that still runs rampant across Europe.

We must #alwaysremember.
We must #neverforget.

On Yom HaZikaron, NSO Group remember and honor our nation's fallen soldiers and victims of terrorism, who lost their lives in the defense of the State of Israel.

Today, we stand in commemoration with the families whose loved ones paid the ultimate price in service of our country, safety, and freedom.

We remind ourselves of Natan Alterman's immortal words: "Israel was not given to us on a silver platter, but was won with the blood of those we loved most and for whom we must carry on and flourish."

Their sacrifices will never be forgotten.

#YomHazikaron #MemorialDay #NSOgroup

On Israel's 73rd Independence day, NSO Group wishes the State of Israel many more years of innovation, entrepreneurship, creativity and inspiration, and joins in celebrating all its successes.

We are proud to be an Israeli company, and a leader in our industry, and continue to help governments in their efforts to save lives and make the world a safer place.

We wish you and your loved ones a happy #IndependenceDay!

As drones become easily accessible, sensitive environments such as construction sites are at an increased risk. Drone defense should be addressed as a top priority for project managers in such fields.

[Gilad Sahar](#), Business Director at NSO Group, highlights the diverse risks posed by increased drone usage. He describes how Eclipse, our drone defense solution, can mitigate the threats posed by unauthorized commercial drones.

Today we join the international community to celebrate #EarthDay. It's a special day to celebrate our environmental accomplishments and be aware of what else we can do to be better for the world we live in.

At [NSO Group](#), we respect our environment through various green initiatives such as using recycled utensils in our kitchen, paper in our offices, properly disposing of batteries and other electronic waste, and offering shuttles to our employees to reduce carbon emissions.

Join us today as we celebrate the beauty of our world, increase awareness about our environmental impact, and consider more actions we can take to protect our planet.

#HappyEarthDay! 🌍
