Subject: African Investment Forum to Encourage Positive and Critical Projects in Africa

Good afternoon Brendon-

I am working with the Africa Investment Forum (AIF) - an organization launched by the African Development Bank to facilitate investment into Africa.

The AIF's aim is to catalyze investor interest in the aftermath of the Covid-19 pandemic and identify high-quality opportunities across energy, logistics, health, agriculture, and other priority sectors.

The group is focused on the importance of economic engagement in Africa by the global community, and how to ensure that projects across Africa have positive ecological and social impacts.

Please let me know if you would like additional details or have any questions about the AIF's mission or its leadership.

Thank you,
Eric
