

Nineveh Plain Defense Fund The NPU receives salaries for 500 of its fighters from the central government per the authorization by the Government of Iraq through Nineveh Liberation Operation Command. The Iraqi government has authorized 1,000 more and their salaries would be provided by the central government. However, the KRG has vetoed the implementation of this increase through the joint command structure where the anti-ISIL coalition members coordinate.

The NPU has also received small shipments of light arms from the Iraqi government. In addition, the NPU was authorized to open several bases in the Nineveh Plain but received no funding from the Government of Iraq to build those bases actually.

The Iraqi Army has also allowed the NPU to use some equipment like troop transport vehicles but only during the early phases in liberating the Nineveh Plain. Following those early stages, the troop transport vehicles were deployed elsewhere.

So while there is some funding and support, it is both not enough and limited by political constraints.

The funding for non-munitions equipment for the NPU via the NPDF is needed to respond to the urgent needs our NPU soldiers are facing today.

The NPU continues to advocate for greater support from the Iraqi Government, the KRG, and allies such as the United States.

The NPU is now operating six checkpoints in the Nineveh Plain. Through the NPDF, Assyrians around the world have purchased 2 vehicles that NPU soldiers are now using to patrol amongst these checkpoints.

The NPDF thanks our NPU supporters who made this possible:

\$55,975 raised by February, 2017

\$30,000 sent to NPU to purchase the vehicles

\$22,291 remaining balance end of February, 2017

Receipts and bank statements disclosed below.

The NPDF is the only authorized, official mechanism to support the NPU. Donations intended for the NPU should only be given to the NPDF. All your donations to the NPDF go strictly to the NPU and only the NPU.

Join our soldiers. They are fighting for us.
