Statement from the NPU:

CLARIFYING FORMAL REPRESENTATION OF THE NPU:

Since the formation of the Nineveh Plain Protection Units in November 2014, countless reports and posts have been published citing the security force. In regards to social media, numerous social media pages/individuals claim they are "representing" the NPU. On behalf on the Leadership of the Nineveh Plain Protection Units, we are hereby clarifying that no other entity can speak on our behalf. The only source of reliable, factual statements concerning the NPU is to come from this official page and our sister organization: the Nineveh Plain Defense Fund.

The only organization with legal permission to operate on behalf of the NPU is the NPDP. Notably, the NPDP and its leadership are formally registered with the United States Department of Justice under the U.S. Foreign Agent Registration Act as agents for the foreign principals of the Nineveh Plain Protection Units. Therefore, the NPDP is the **ONLY** organization legally authorized to financially and logistically support the NPU. No other individual or organization may request financial funding or support on the behalf of the NPU except the NPDP.

Notably, legal action may be taken against individuals or organizations that guide or request funding on behalf of the NPU apart through the NPDP. Organizations and individuals interested in raising funds for the NPU can do so but are required to contact the NPDP to coordinate those events and to assure all donations go to the NPU and to ensure full financial transparency.

To summarize, all other news outlets and individuals are prohibited from claiming official representation or from independently fundraising for the NPU except the Nineveh Plain Defense Fund. The NPU is not responsible for the false claims including requests by other social media pages, and individuals, etc. The only reliable outlet of factual news concerning the NPU is that which comes from this official page.
