I have little doubt this report will be read by Assyrians for generations to come in order to understand the challenging political situation that free Assyrians face in Iraq in 2018 but really since the fall of Saddam.

When Assyrians say ganaan qa ganaan, ourselves for ourselves, this is what we mean. Reports like this are an essential step in us understanding and, ultimately, controlling our narrative and our future.

Congratulations to the [Assyrian Policy Institute](#) for just an incredible contribution to our history.

This is a vital report by the Assyrian Policy Institute analyzing the 2018 Iraqi Parliamentary Elections. The unprecedented report goes beyond simple documentation of flagrant abuses to elucidate a complex web of systematic and institutional disenfranchisement of Assyrians in Iraq.

As noted in the report's Acknowledgment, members of the Nineveh Plain Defense Fund did provide ad hoc consultation and advice upon request. No financial support was provided.
