

The NPU is officially expanding by 100 men. This expansion reflects progress in having the new Iraqi government fulfill past decisions to increase the NPU's force structure. But your support is still needed as they are being called up in advance of funding, which is awaiting finalization of the budgetary process.

So they need your help. \$100 a month will finance food and non-munitions equipment for one month. Please give as an individual or lead or join a team and support these brave men. Any contribution is appreciated.
