Attachment to Exhibit B

Note: Effective October 2016, SGR LLC Government Relations and Lobbying ("SGR") elected to register under the Lobbying Disclosure Act ("LDA") for a subcontracting project from Flynn Intel Group ("FIG"), which had been hired by Inovo BV. SGR registered under the LDA based on information it received from FIG and based on the fact that FIG registered under the LDA for its work for Inovo BV. SGR understood from FIG that Inovo BV is a private entity not owned or controlled by a foreign government. Recently, SGR learned that FIG now plans to file under the Foreign Agents Registration Act ("FARA") for its work for Inovo BV. FIG has explained that this is due to the subject matter of the overall engagement between FIG and Inovo BV. Because SGR’s work under the subcontract related to FIG’s engagement with Inovo BV, SGR is also now filing under FARA.

Responses to Items 7-9.

In late September 2016, FIG hired SGR to provide services to FIG. SGR and FIG entered into a contract formalizing the scope of this work in early October 2016. Pursuant to SGR’s contract with FIG, SGR agreed to perform public affairs work designed to encourage and strengthen relations between the governments and business communities of the United States, Turkey, and Europe. This work included research and analysis of the political environment and related third party groups in the United States. It also included providing strategic support for message development and communications strategies, including government and media outreach. SGR understood that the goal of these efforts was to improve the business climate and investment opportunities related to Turkey by demonstrating stability. SGR received no direction, input, or funding from anyone other than FIG.

Pursuant to SGR’s contract with FIG, SGR performed research, support, and outreach activities for a period of time that was less than two months. Contacts with media personnel and government officials are summarized in the below chart. As part of these efforts, SGR engaged several journalists and policy-makers on national security and education issues concerning how these related to the relationships between the countries of Turkey and the United States. SGR also researched and analyzed the effect of Mr. Fetullah Gulen’s presence in the United States in this context. It monitored media and policy updates as they related to Mr. Gulen and charter schools to assist in advance planning related to a public affairs campaign designed to provide information regarding these issues. Also, at the specific request of FIG, SGR created a graphic summarizing important issues based on publicly available materials. SGR exchanged multiple versions of this graphic with FIG that included revisions based on FIG’s feedback and input. SGR did not publish or otherwise disseminate this graphic or any other materials based on the above work.
SGR received three payments from FIG under the contract. It received $15,000 on September 28, 2016; $10,000 on October 20, 2016; and $15,000 on November 15, 2016. SGR disbursed $177.95 related to this work, for multiple Uber rides from October 4, 2016 through October 27, 2016.

On or about November 7, 2016, an employee at FIG contacted SGR to request assistance in placing an opinion piece that General Michael Flynn had written. As standard practice, SGR confirmed with FIG that the document was written within the company (a question that would be asked by any op-ed page editor). In recent discussions, FIG has explained that this article was not written under the direction or control of Inovo BV; rather it was an issue on which General Flynn wanted to opine. SGR assisted FIG by contacting The Hill to secure publication. Further, SGR e-mailed multiple U.S. and international media contacts with a copy of the article once it was published in The Hill.

By its terms, SGR’s contract with FIG ran from September 20, 2016 through December 20, 2016. SGR completed all work related to this contract within the first two months of its term. SGR’s work relating to FIG and Inovo BV and its indirect relationship with Inovo BV stopped at the same time as FIG suspended its operations, which was in November 2016.
