WASHINGTON, June 24, 2026 /PRNewswire/ -- Robert Stryk, Founder and Chairman of Stryk Global Diplomacy, today joined our Somali friends and client in calling for the resignation of Federal Republic of Somalia President Hassan Sheikh Mohamud and urged the United States to investigate allegations of corruption, misuse of international aid funds, and abuse of public office.

The related engagement will focus on allegations that U.S. taxpayer-supported assistance, including resources provided through the World Food Programme and USAID, were diverted for the personal benefit of politically connected Somali individuals and family networks. The review will also examine reported links between individuals associated with President Hassan Sheikh and fraud cases involving members of the Somali community in Minnesota, as well as the President's close ties to members of Congresswoman Ilhan Omar's family.

"Democracy and capitalism cannot thrive where public institutions are used to enrich political elites at the expense of the people they are meant to serve. The Somali people deserve transparent leadership, accountable government, and leaders who place the national interest above personal enrichment."

— Robert Stryk, Founder and Chairman, Stryk Global Diplomacy

Stryk added: "The allegations surrounding President Hassan Sheikh Mohamud are too serious to ignore. For the good of Somalia, its democratic future, and its relationship with international partners, the President must step aside."

Stryk Global Diplomacy Is Formally Submitting Petition to the U.S. Treasury Requesting Immediate Sanctions Against President Hassan Sheikh Mohamud, His Immediate Family and Close Associates

WASHINGTON, D.C. - Stryk Global Diplomacy, under the direction of its client, Dr. Abdillahi Hashi Abib, MP, Member of the Foreign Affairs Committee of the House of the People of the Federal Republic of Somalia, is formally submitting a petition to the United States Department of the Treasury requesting the immediate imposition of targeted sanctions against President Hassan Sheikh Mohamud and members of his immediate family.

The petition requests that the Department of the Treasury investigate allegations that substantial public funds belonging to the Somali people have been transferred outside Somalia for the personal benefit of President Hassan Sheikh Mohamud and his family. The submission includes supporting information and materials that Dr. Abdillahi Hashi Abib, MP, has asked the United States Government to review in determining whether sanctions and other appropriate measures are warranted under applicable U.S. law.

Stryk Global Diplomacy stated that the petition follows information provided to the United States Government concerning alleged massive outflows of Somali public money and related concerns regarding the potential movement of public resources abroad. The filing asks the appropriate U.S. authorities to review the information submitted and evaluate whether targeted financial sanctions are justified.

"Our responsibility is straightforward: when our client presents evidence he believes raises serious concerns about the misuse of public resources, we ensure that information reaches the appropriate authorities through the proper legal channels. That is precisely what we are doing today."
