	10:00 AM	Posted	GLOBAL	FEED	With thousands of years of history, political power, art, architecture, and engineering marvels to its name, it's no wonder #Venice and its lagoons were inscribed as a @UNESCOWorldHeritage site in 1987. Once a major maritime power and commercial hub during the Middle Ages and Renaissance, when it began to lose its power over the seas, it became the most important European cultural center thanks to its unique cultural heritage and great painters. Bellini and Giorgione, Tiziano, Tintoretto, Veronese and Tiepolo completely changed the perception of space, light and color with the style of artwork known as Venetian painting!  The city of #Venice actually sits on 118 small islands and has one of the highest concentrations of masterpieces in the world, making it directly and tangibly associated with the history of humankind: from Torcello's Cathedral to the church of Santa Maria della Salute. The years of the Republic's extraordinary Golden Age are represented by monuments of incomparable beauty: San Marco, Palazzo Ducale, San Zampolo, Scuola di San Marco, Frari and Scuola di San Rocco, San Giorgio Maggiore, etc.  Venice symbolizes the people's victorious struggle against the elements as they managed to master a hostile nature as well. However, due to increasingly frequent flooding and rising water levels connected to climate change, Venice and its cultural, architectural and historical treasures have become very vulnerable and need protective measures.  Take a look at some of the wonderful views of Venice:  Piazza San Marco, or St. Mark's Square, is Venice's main and largest square. St. Mark's Basilica contains more than 8,000 square feet of mosaic. The Ponte Rialto, or Rialto Bridge, is the oldest of the four bridges spanning Venice's Grand Canal.  #unesquworldheritage #italy #UNESCO #italia #venice #town #explore #like #beautiful #travel #art #wine #likeitaly #ancient #lagoon #veneto #love #ig #Basilica #like #instagood #travel  @francesco.vaninetti, @westend81, Vision and Imagination Photography, Jakob Radgruber / @eyeemphoto / E+ / Getty Images	Venice_FEED 1-6	S-3 to add to Creatives folder once finalized [Add location tag: Venice]	<a href="https://whc.unesco.org/en/">https://whc.unesco.org/en/</a> <a href="https://www.nytimes.com/2021/12/08/arts-architecture/venice-heritage.html">https://www.nytimes.com/2021/12/08/arts-architecture/venice-heritage.html</a> <a href="https://www.nga.gov/feature/venice.html">https://www.nga.gov/feature/venice.html</a> <a href="https://www.walksofitaly.com/">https://www.walksofitaly.com/</a>
