Tuesday, March 22	2:30:00 PM	Posted	SCI/ECON	FEED	Sustainability in Italy Companies that invest in green technology export more, innovate more and employ more people. In Italy, 430,000+ industry and services companies have invested in green technology and products between the years 2015 and 2019! The Green Complexity Index measures the ability to export technologically advanced green products. Italy ranks 2nd in the world for the export of green products!	3D solar farm		Italy team—this content was previously approved.
