					Most people know that the piano was invented in Italy, but what other musical inventions demonstrate Italy's prestige as an #EternalInnovator?  The mandolin has deep roots in Italy and took many forms over centuries of blended Italian innovation. Let's look at some historical highlights:  The Milanese and Lombardy mandolins were strung with 4, 5, or 6 strings and were tuned in fourths.  The Florentine, Bresciano, and Cremonese mandolins had longer necks.  Italian Pasquale Vinaccia modernized the mandolin in the 1830s by introducing steel strings, a higher fret board, and a deeper bowl. This is the mandolin many think of today!

					@Labiennaledivenezia's 2022 Biennale Arte launches this Saturday! For the first time in its history, this prestigious international art show has been curated by an Italian woman—the extraordinary Cecilia Alemani.  Alemani was also featured in our documentary "One of Us," which launched on International Women's Day this March. With a remarkable visual eye, she's organized exhibitions and other art events throughout the world, including @HighLineArt, a renowned public art program in New York, and the Italian pavilion at 2017's Biennale Arte.  For some insights into this year's Biennale Arte exhibition, titled "The Milk of Dreams," check out this interview with Alemani in @theartnewspaper.  <a href="https://www.theartnewspaper.com/2022/04/11/a-world-of-possibility-cecilia-alemani-the-curator-of-the-2022-venice-biennale-discusses-the-show">https://www.theartnewspaper.com/2022/04/11/a-world-of-possibility-cecilia-alemani-the-curator-of-the-2022-venice-biennale-discusses-the-show</a>

	12:00:00 PM	Posted	GLOBAL	FEED	Rocca Calascio, a medieval village with less than 100 residents, sits in the central Italian Apennine Mountains. A thousand-year-old castle overlooks the town, almost two miles uphill from the residences. Recently, a revival movement, including a 26-member cooperative led by castle custodian Franco Cagnoli, is working to restore the castle and bring visitors to the town.  Thanks to its dedicated residents and a new initiative by @ministerodellacultura to restore Italian villages ( borghi) and incentivize people to visit and live there, Rocca Calascio is getting new life in the 21st century. <a href="https://www.reuters.com/world/europe/italian-medieval-mountain-hamlet-reborn-city-appeal-dims-2022-03-22/">https://www.reuters.com/world/europe/italian-medieval-mountain-hamlet-reborn-city-appeal-dims-2022-03-22/</a>	Link autpopulates

Tuesday, April 19	4:00:00 PM	Posted	GLOBAL	FEED	Until July 31st, visitors to the Fondazione Palazzo Strozzi and the Musei del Bargello in Florence can experience a never-before-seen exhibition featuring all the major works of Donatello, including four bronze sculptures that haven’t been moved since their first installation by Donatello himself—over 600 years ago!  Three of the pieces underwent meticulous restoration prior to being displayed, using techniques such as thermographing to discover structural weaknesses and chiselling with porcupine needles. Learn more about the careful process to restore these works of art, and why this Donatello exhibition is a once-in-a-lifetime affair. <a href="https://www.theguardian.com/artanddesign/2022/mar/03/donatello-bronzes-moved-in-italy-for-groundbreaking-exhibition">https://www.theguardian.com/artanddesign/2022/mar/03/donatello-bronzes-moved-in-italy-for-groundbreaking-exhibition</a>	Link autpopulates
