In the first half of 2024, Ukraine's largest gas producer, UkrGasvydobuvannya, pumped 8.8% more gas than in the same period last year, the company announced on July 16.

The company produced 6.9 billion cubic meters of commercial gas, according to the [statement](#).

"UkrGasvydobuvannya has put 41 new reservoirs into operation, 14 of which are high flow rate reservoirs. For example, the daily flow rate of one of the latter exceeds 400,000 cubic meters. These are very good results," UkrGasvydobuvannya's acting CEO Serhiy Lahno said.

The gas producer also reached 165,864 meters of drilling meterage over the past six months, which is 9,117 meters more than last year's figure for the same period, Lahno added.
