Huawei has pulled out all the stops with up to five rear cameras on its P40 series.

No surprise the Huawei P40 seems like an incredible smartphone series, particularly in the cameras. I'm waiting on a P40 Pro+ sample because it's the one with the craziest optics. But @journeyman's already using the Pro and his writeup explains it all.

Huawei P40 Pro hands on preview: I can see clearly now With the P40 Pro, Huawei is going all-in on its own app store. But it's the phone's camera system that stands out — physically and otherwise.
