Language is so important. See how strong wireless capabilities is helping translators bring people together around the world.

Our employees come from all around the world. Having different cultural backgrounds allows them to communicate ideas more openly. Marianna from Spain shares what she loves about working at Huawei.

Huawei Scene Kit is a handy tool for developers looking to incorporate 3D designs into their apps. Check out how it works!
Divide into the possibilities of taking a highly verticalized approach to 5G with Huawei's CTO Paul Scannell. Don't miss him break down how 5G can change the game during @LightReading's #Big5GEvent at 1:35 p.m. CT today. tinyurl.com/yy5dts7
