Huawei Twitter and Facebook September 21 – 22

Language is so important to connection. See how strong wireless capabilities is helping translators bring people together around the world.

Our employees come from all around the world. Having different cultural backgrounds allows them to communicate ideas more openly. Marianna from Spain shares what she loves about working at Huawei.

Huawei Scene Kit • 3 handy tools for developers looking to incorporate 3D designs into their app. Check out how it works!

Dive into the possibilities of taking a highly verticalized approach to 5G with Huawei's CTO Paul Scanlan. Don't miss his break down How 5G can change the game during @LightReading's Big5GEvent at 1:35 p.m. CT today.

Building an AR app sounds intimidating but not with the Huawei AR Engine. Follow this step-by-step guide to try it out.

We are honored to be supported by so many quality sponsors & industry associations for MobileCon 2020. Thank you for playing an important part in this year's event. See you all in Shanghai Sept 23-26.
Join industry leaders and Huawei’s Mohamed Madkour today at 1:50 p.m. CT at #LightReading’s #Big5GEvent as they discuss 5G use cases and how different industries can benefit from this new network.

The Big 5G Event
Is there an opportunity beyond connectivity for MNOs?
Sept. 22, 150 - 225 p.m. CST

We are ready! With just 1 day to go, the final countdown to Huawei Connect 2020 has started. The broadcast room is set up, exhibition booths have been built and the signs are in place. All that remains is your arrival. So, are you ready?

It’s time for TECHTUESDAY! Tim Danks is here to answer your questions about intelligent vehicles.

Get @Dataviewer’s first impressions of the Huawei MateBook14 after spending a whole day with it.

Join industry leaders and Huawei’s Mohamed Madkour today at 1:50 p.m. CT at #LightReading’s #Big5GEvent as they discuss 5G use cases and how different industries can benefit from this new network.
QQ: What are the benefits to autonomous cars/increased ride sharing?

Q: Do you expect fully autonomous cars to become the mainstream in our lifetime?

Q: How do you see the world changing as autonomous cars become more common?

Q: Is there a specific location you think would be the most likely to adopt autonomous vehicles?

Q: Don’t you think people will always be too skeptical to trust using a car with no driver? Won’t it be dangerous?

Huawei wants to charge your phone with lasers: Here’s when we could see it

A room equipped with a laser charging module, could provide safe invisible charging power to multiple devices simultaneously.

Huawei patents laser wireless charging tech, so when will we see it? Huawei has patented true wireless charging via laser technology, while also letting us know when we can expect the technology in phones.
