Effective networks are essential for strong communication. The more we are connected, and effectively connected through interoperability, not just integration and multi-tier processes, commonalities, through supply chain networks, the better off we are. When we are only dealing with EDI and...
Ecosystem partners are essential to creating solutions that quickly and effectively manage emergencies, Nadim Abdulrahim, Global Government Industry Expert at Huawei explains.

> How collaboration can improve the emergency serv... The emergency services can benefit from a more integrated and innovative approach, writes Huawei....
