Society's push for more sustainable living cannot be achieved until digital technology is available to everyone. Read more about ICT and how we can empower the economically disadvantaged in healthcare, education and financial services. #Tech4All

Narrowing Inequality By Overcoming 3 Tech Barriers
Digital technologies may be publicly available and increasingly pervasive, but are they impacting inequality?

In 2020, our global digital consumption increased dramatically. There are many reasons for it, but that level of consumption also comes with many issues. Head over to TECHXCHANGE for an open discussion on digital trust, shared responsibility and more.

TECHXCHANGE
Technology has always progressed with humanity. At its best, it aids our progress, regardless of age, gender or background, working silently to...

HUAWEI We believe the best companies in the world are co-owned by their employees. That's why our team members all have the opportunity to own shares of Huawei. Head over to [TECHXCHANGE](#) for more on this model, its history, impact and why it still works today.

Profits to the people
The dedication and resilience found in employee-owned businesses are now more valuable than ever. Subsidies should not be confused with ...
