## NEOM announces Jaumur, a cosmopolitan marina community

**NEOM, Kingdom of Saudi Arabia, May 8, 2024** – The Board of Directors of NEOM has announced Jaumur, the largest cosmopolitan luxury community set on the coast of Gulf of Aqaba, designed to serve the highest standards of future livability and active lifestyle. This new addition promises a unique blend of experiences on both land and sea, complementing NEOM's evolving regional development in northwest Saudi Arabia.

Jaumur is an exclusive residential community thoughtfully master planned around an inspiring marina for more than 6,000 residents. Embedded into the varied topography of the Gulf of Aqaba coast, it features 500 marina apartments and nearly 700 luxury villas, boasting waterfront access and private mooring. Two distinctive destination hotels within Jaumur offer 350 luxurious rooms and suites, inviting guests to enjoy the breathtaking views and embrace all aspects of modern coastal hospitality and sporting activities.

The marina serves as the focal point of the development, the beating heart around which the vibrant community of Jaumur thrives. A monumental 1.5-kilometer aerofoil rises above the largest of the yacht berths, providing year round protection for yacht owners and a haven for the marina's residents and guests. The aerofoil incorporates a gravity-defying cantilever to form a stunning entrance to the marina, welcoming the world's largest superyachts. The sculptural structure is a landmark that serves as the perfect base for all the marina attractions, for committed yachting enthusiasts and adventurers seeking personalized experiences.

The marina promenade will be a place alive with entertainment, leisure and cultural experiences, hosting year-round arts events and performance programs, complemented by signature retail stores and world-class dining options.

Jaumur's commitment to innovation and learning is embodied in the development's state-of-the-art deep-sea research center and top-tier international boarding school. The research institute is dedicated to deep-sea exploration, welcoming established experts and ambitious pioneers to champion marine discovery, knowledge and conservation and establish NEOM as a world-leading hub for oceanographic research.

The international boarding school will attract select students from around the world, preparing them for global achievement through an exclusive and progressive, broad based education, delivered by a diverse international faculty of experts and innovators.

Jaumur's unique architectural design integrates water where golden sands meet the deep blue of the Gulf of Aqaba. It is a luxury destination to visit, explore, live and prosper: an opportunity to become part of a dynamic community.

Jaumur follows the recent announcements of Leyja, Epicon, Siranna, Utamo, Norlana, Aquellum, Zardun, Xaynor, Elanan, Gidori, and Treyam as sustainable tourism destinations within the Gulf of Aqaba, all woven together by NEOM's commitment to sustainable progress.

## About NEOM

NEOM is an accelerator of human progress and a vision of what a New Future might look like. It is a region in northwest Saudi Arabia on the Red Sea being built from the ground up as a living laboratory – a place where entrepreneurship will chart the course for this New Future. It will be a destination and a home for people who dream big and want to be part of building a new model for exceptional livability, creating thriving businesses and reinventing environmental conservation.

NEOM will include hyperconnected, cognitive cities, ports and enterprise zones, research centers, sports and entertainment venues and tourist destinations. As a hub for innovation, entrepreneurs, business leaders and companies will come to research, incubate and commercialize new technologies and enterprises in groundbreaking ways. Residents of NEOM will embody an international ethos and embrace a culture of exploration, risk-taking and diversity.
