

COP29 Azerbaijan NDC Statement

Developing NDCs is a complex cross-government exercise, and it is important to focus on the outcome rather than the exact date of publication. Azerbaijan is in the final stages of completing its NDC and will submit it by the deadline. As the COP29 Presidency, we encourage all Parties to come forward with their own 1.5-aligned NDCs, in light of different national circumstances, so together we can foster investment and support in delivering climate action.
