Press Release - Council of Ministers of the Republic of Somaliland

REF: M-JSL23-8030/01/23 DATE: 18/01/2024

Press Release - Council of Ministers of the Republic of Somaliland

The 122nd session of the Council of Ministers of the Republic of Somaliland was held under the chairmanship of H.E. President Muse Bihi Abdi and in presence of Vice President Abdurahman Abdillahi Ismail (Saliki). The session focused on the issues concerning the Horn of Africa region and particularly latest developments in Somaliland and Somalia.

It is historically known that the Republic of Somaliland, a former protectorate of the British Empire from 1884 to 1960, gained independence on June 26, 1960, as the 17th independent country in Africa. At the time of independence, Somaliland had international borders, a recognized government, constitution, and parliament, similar to other countries that achieved independence.

The illegal union between Somaliland and Somalia on July 1, 1960, was born out of the desire for the unification of the five Somali territories in the Horn of Africa. However, Somaliland immediately rejected the union process and instead proposed the Act of Union to bring the two sides together. Unfortunately, the Somaliland Act was rejected, and the Somalia Act was voted for, leading to the majority of Somaliland people rejecting the referendum on the 1961 constitution.

Since then, the people of Somaliland have endured significant violence and widespread genocide. In 1988, 50,000 civilians were killed, and huge damage and destruction was inflicted on the infrastructure in both urban and rural areas while one million people fled to neighboring countries as refugees as testified by the UN report in 2001 and acknowledged by Somalia leaders.

Following the collapse of Somalia, the people of Somaliland, led by cultural leaders, intellectuals, politicians, and scholars, decided to reclaim their independence on May 18, 1991. Since then, Somaliland has not been part of any of the governments formed by Somalia over the past 33 years. The constitution created by Somalia only applies to their five regional administrations and governments.

The independence of Somaliland was reaffirmed at the Burco conference in 1991

international organizations and countries, including Somalia.

2. In alignment with the Constitution of Somaliland, specifically Article 10, paragraph 4, the Republic of Somaliland is committed to promoting consensus and reconciliation as an alternative to the longstanding conflicts among the countries in the Horn of Africa.

3. The practice of approving and leasing naval bases is not uncommon among the countries in the Horn of Africa, including Eritrea, Djibouti and Somalia.

4. In line with the Memorandum of Understanding signed on January 1, 2024, between the governments of the Republic of Somaliland and the Federal Republic of Ethiopia, both parties have reached an agreement for the lease of a military base from Somaliland to Ethiopia. This agreement carries great significance as it includes Ethiopia's recognition of the Republic of Somaliland.

It is worth noting that the naval base in question is being leased to Ethiopia, not sold, for a specified period of time. The official signing of the agreement will be subject to approval from the respective legislative councils.

have expressed various unreasonable allegations, such as the claim that the presence of an Ethiopian naval base in Somaliland would result in our people forsaking Islam. Nevertheless, it is worth noting that Ethiopia already maintains a base in Somalia and other Muslim countries.

10. During these ongoing disputes, Somalia asserts its right to engage in the maritime agreement, as they have already done so. They do not oppose the agreement itself but object to allowing the Republic of Somaliland to participate in it. However, the resilient Somaliland government staunchly rejects this decision, showcasing their unwavering dedication to fulfilling the aspirations of their people.

11. We strongly urge the Somali government to cease the dissemination of misleading information to the Somali people and to halt their involvement in inciting violence and supporting extremist organizations.

12. The Republic of Somaliland stands resolute in its decision to refrain from entering into any negotiations concerning its nationality and sovereignty over its land and sea. It remains dedicated to safeguarding its territorial integrity and

PRESS RELEASE
SOMALILAND: COUNCIL OF MINISTERS MEETING

The 125th session of the Council of Ministers of the Republic of Somaliland was held today at the presidential palace, with President Muse Bihi Abdi presiding. The main agenda of the meeting was to discuss and analyze the security situation in the region.

Following the signing of an agreement on the 1st of January this year between the Republic of Somaliland and the Federal Government of Ethiopia, the Mogadishu government has initiated hostilities against the people of Somaliland. Reports from a radio station controlled by the Mogadishu government suggest collaboration with extremist groups. In addition, Mogadishu has taken aggressive actions, such as denying entry to a medical aid plane carrying a citizen in need of urgent medical treatment abroad, a clear violation of international law. This aggression has also extended to the targeting of Somaliland citizens in Mogadishu-controlled areas, resulting in casualties, arrests, and the torture of Somalilanders.

After thorough discussion and analysis, the Council of Ministers made the following:

1. The Republic of Somaliland has maintained peace since reclaiming its independence, fostering positive relations with neighboring states and actively promoting peace in the Horn of Africa region to ensure the safety and stability of its residents.
2. The Cabinet of Ministers urges the Government of Somalia to cease hostilities against the citizens of Somaliland residing in the territory under its control. These individuals have suffered genocide and it is imperative for the government of Somalia to refrain from further harm. Failure to do so may result in long-term negative consequences.
3. The government of Somaliland calls on the international community to prioritize the safety and well-being of the citizens of Somaliland who are being targeted in Mogadishu, as they provide security and financial support to the government of Mogadishu.
4. The government of Somaliland has lodged a formal complaint against the government of Mogadishu with judicial and human rights agencies, urging them to initiate an international investigation into the killings and executions of Somaliland citizens living in Mogadishu.

of Somaliland, as it has authority over its sea, land, and air territories.

6. The government of Somaliland strongly denounces the actions taken by the government of Mogadishu that led to the disruption of air traffic, resulting in a near collision between Qatar Airways and Ethiopian Airlines. This incident, confirmed by the pilots and management of both airlines, was caused by a misguided and irresponsible order from Mogadishu, a decision that Somaliland condemns.
7. The Council of Ministers urges organizations involved in air management like ICAO and IATA to engage in open communication with the air management authorities in the Republic of Somaliland.
8. The Council of Ministers commends the people of Somaliland for preserving their national identity and unity, and for their dedication to protecting the nation's interests, especially in light of the recent Memorandum of Understanding between the Republic of Somaliland and the Federal Government of Ethiopia.
9. The Council of Ministers issues a strong warning against individuals who propagate and support the schemes and deceptions of adversaries targeting the people of the Republic of Somaliland, through verbal, physical, or written means.

Lastly, the Council of Ministers discussed proposed amendments and additions to the Real Estate Mortgage Act No. XX/2023 of the Bank, drafted by the Attorney General and the Governor of the National Bank and approved these changes through a majority vote.
