**Immediate Press Release**

**The Government of Somaliland Expresses Deep Concern Over the Recent Supply of Heavy Weapons to Mogadishu Administration.**

**Hargeisa, Somaliland, September 23rd, 2024** - The Government of the Republic of Somaliland expresses profound concern over the recent supply of heavy weapons to the Mogadishu administration by Egypt which jeopardizes the security of a region already facing complex security challenges.

The Government of Somaliland is deeply alarmed by the transfer of these weapons, as the Mogadishu administration currently lacks the capacity to effectively manage or safeguard such a large cache of military equipment. The unchecked proliferation of arms in an already fragile environment heightens the risk of an arms race, with various factions likely seeking to acquire their own stockpiles in order to safeguard their interests. The Government of Somaliland is particularly concerned that these weapons could fall into the hands of extremist groups like Al-Shabaab and other active clan militias, further exacerbating violence and instability in the region.

Given these risks, the Government of the Republic of Somaliland calls on the international community to take immediate and proactive steps to address these growing concerns. Preventive measures are crucial to avoiding a further escalation of tensions, renewed conflicts and bloodshed and to protect the ongoing efforts to promote peace and security in the region. The stakes are too high for inaction.

The Government of Somaliland remains committed to fostering peace, stability, and constructive dialogue and urges all responsible stakeholders to address these escalating concerns before they spiral out of control. Immediate action is essential to avert a broader conflict and maintain the region's fragile stability.

**PRESS RELEASE**

**The Government of the Republic of Somaliland is deeply concerned about the recent outbreak of hostilities in and around the town of Goof, located in the southeastern part of the Sanaag region.**

**Hargeisa, Somaliland – August 28, 2024** – The Government of the Republic of Somaliland is deeply concerned about the recent outbreak of hostilities in and around the town of Goof, located in the southeastern part of the Sanaag region. These hostilities have been deliberately instigated by militia groups with the clear intent of disrupting Somaliland's upcoming elections, scheduled for November, and undermining the decades-long peace that has been diligently maintained by the Government and people of Somaliland. The upcoming elections and sustained peace in Somaliland are what set us apart and embody the will and aspirations of Somaliland's citizens.

Initial intelligence reports received by the Government of the Republic of Somaliland indicate that these anti-Somaliland hostilities are being led by Ahmed Karasah, the former vice president of the Puntland administration, along with several external anti-Somaliland militia forces, who not only aim to destabilize the Republic of Somaliland but also threaten the entire Horn of Africa region. Intelligence reports also show that Karasah is currently in the border district of Buuboolle in the Republic of Somaliland's Togdheer region and is actively attempting to mobilize militia forces.

So far, this unprovoked aggression by militia groups has tragically claimed the lives of eight people, including five innocent nomadic herders who were brutally murdered in Goof, located 80 kilometers southeast of Hargeisa, the regional capital of the Republic of Somaliland's Sanaag region. In retaliatory actions, three members of the militia forces have also been killed.

Despite these troubling developments, the Government of the Republic of Somaliland categorically condemns these aggressions by anti-Somaliland militia forces. We call upon the international community to take immediate notice of this attack, which poses a grave threat to regional peace and security.

To the Somaliland people, we assure you that all necessary measures are being taken to prevent further escalation of violence. The Government of the Republic of Somaliland is unwavering in its commitment to safeguarding the peace and security of our territories and citizens. We further issue a stern warning to those fueling this conflict to cease their inflammatory aggressions immediately. The Government of the Republic of Somaliland will not hesitate to take decisive countermeasures to protect the country and ensure the safety of its citizens.

The situation is evolving, and the Government of the Republic of Somaliland will provide further updates as additional information becomes available. We strongly urge all Somalilanders, at home and abroad, to unite in the face of this naked aggression against Somaliland.

*Date: 13<sup>th</sup> August 2024*

**Immediate Press Release**

**Somaliland Government Reiterates Commitment to Ethiopia MoU, Asserts Sovereign Right to International Agreements.**

**August 13th, 2024 Hargeisa, Somaliland** - The Government of the Republic of Somaliland remains steadfast on moving forward with the Memorandum of understanding with Ethiopia.

The Government of the Republic of Somaliland remains committed to implementing the MoU with Ethiopia. We have been closely monitoring the talks initiated by Türkiye as mediation efforts between Mogadishu Administration and Ethiopia that started on Monday August 12, it is clear that talks did not bring desired results for Türkiye.

During a press conference on Friday August 9, the Turkish Minister of Foreign Affairs stated that the goal for the talks is to ease tensions between the Mogadishu administration & Ethiopia. Türkiye's growing involvement in such regional matters is a clear indication of the lack of impartiality of Türkiye as a mediator and their aim to directly interfere with the MoU between Somaliland and Ethiopia.

His Excellency President Muse Bihi Abdi speaking at a rally in Berbera two days ago sent a strong message to Türkiye stating "Türkiye is not respecting the Sovereignty of the Republic of Somaliland and Somaliland will not accept this, nor will Somaliland ever accept this as it is equivalent to saying that Somaliland will be ruled from Mogadishu". The government of the Republic of Somaliland reserves the right to enter into international agreements, as such we urge the government of Türkiye as well as others not to interfere.

The Government of the Republic of Somaliland remains committed to regional peace and collaboration with neighboring countries, however it will not be at the cost of Somaliland's Sovereignty.

**PRESS RELEASE:** Today, the NEC reiterates its commitment to the people of Somaliland that the Presidential and Political Party elections will be held as scheduled on Nov 13, 2024. NEC briefed on election timeline, ongoing preparations, funds, and BVVR. #SL\_Elections2024 @SLNECHQ

**Press Release**  
Date: 4 July 2024

**NEC Announces Progress in Preparation for Presidential and Political Parties Elections**

Hargeisa, Somaliland – The Somaliland National Electoral Commission (NEC) is pleased to inform the people of Somaliland about the significant progress made in preparing for the upcoming Presidential and Political Parties elections.

**Election Timeline, Operational Plans and Budget:**  
NEC has developed a comprehensive work schedule to ensure election preparation activities, which are progressing as planned. We are currently preparing all necessary equipment and ballot boxes for the election and making excellent progress. Additionally, training, awareness campaigns, and regional and district staff recruitment will begin shortly. The NEC has received a budget of \$2.3 million for the election from the government. NEC has also developed a detailed plan for the disbursement of the remaining funds. The NEC is also in discussions with international donors regarding their potential financial contributions to the election budget.

**Biometric Voter Verification System (BVVS):**  
According to Article 118 of Law No. 19:2022, the BVVS will be used to verify voters before they cast their votes. This system comprises two complementary categories: manual verification using the voter card and their voter's list (VVL) register at the polling station, and biometric verification using BVVS technology. According to Article 108 of Law No. 19:2022, the NEC has the authority to implement and make decisions regarding technical equipment, including the BVVS, at polling stations. We will conduct demonstrations of the new upgraded software and equipment and will make adjustments to provide feedback and suggestions before the implementation. The NEC assures the public that the use of the BVVS system will not cause a delay to the elections.

**Collaboration with All Election Stakeholders:**  
Per Article 21 of Law No. 19:2022, we have prepared the "Internal Regulations of the Committee for Political Parties Associations," which will be shared with the relevant parties and associations soon. This regulation, established in full from the political parties and associations to work closely with the NEC on technical matters, will be presented to stakeholders for their input. Additionally, per Article 20 of Law No. 19:2022, we have prepared a regulation for the Ethics and Conflict Resolution Committee for Elections, establishing an independent committee to monitor compliance with election rules and regulations. NEC also organized the key engagement conference for Somaliland media and Civil Society Organizations (CSOs) to enhance and ensure transparency, inclusivity, and participation in the election.

associators, media, academia, civil society organizations, social media influencers, and the general public, to refrain from interfering with the NEC's work and to abstain from spreading false information that could jeopardize the security and proper conduct of the election process. The NEC is responsible for all election-related matters. Therefore, only NEC can provide information and news about election affairs and will take appropriate action against those who violate election laws and regulations.

The NEC reiterates its commitment to the people of Somaliland that the Presidential and Political Parties elections will be held as scheduled on November 13, 2024. We are fully prepared technically to conduct the elections as planned.

Finally, NEC requested all election stakeholders and the public at large to support the NEC in conducting free, fair, and transparent elections on November 13, 2024.

—End—
