Guyana Election Recount Update

The Guyana National Recount is progressing along the path prescribed by Guyanese High Court and the Elections Commission, GECOM. Stage II, the Recount Observation Report, of four stages of the recount has been completed. The CEO of the Election Commission has written the Recount Observation Report following the Stage I of the Recount. The Phase II Recount Observation Report rules on the legitimacy of the votes cast and pronounces on the certification of the votes based on the conformity with the election laws.

The GECOM CEO has issued the Stage II Recount Observation Report which has delineated votes which can be certified and those which cannot.

The conclusion of the report is that based of the certifiable vote count APNU+AFC has 125,010 Votes and PPP/c has 56,627 votes. According to this count, APNU+AFC has won the election.

The charts below form the basis of Certified Recount Vote Totals:
