DCT – Connected Leadership Programme

Proposal

June 11 2020
Context
Due to the spread of COVID-19 nation-wide, economic uncertainty around the future has grown. International restrictions on movement caused by the pandemic have had a sharp impact on Abu Dhabi’s culture and tourism sectors creating a profound need for DCT Abu Dhabi to showcase its leadership’s ability to navigate this crisis deliberately, decisively and accurately. With a proven track record in building and implementing precise, insight-based programmes and empowering teams to implement them, the Acting Undersecretary, and wider Executive Director leadership team, are uniquely positioned to boost confidence in the organization and by extension, Abu Dhabi’s culture and tourism sectors.

Approach
Brunswick’s approach to leadership positioning programme design and narrative development, particularly during times of crisis is driven by adhering to the principles of the existing DCT corporate narrative, leveraging organisational strategy across various scenarios and advising on the appropriate channels, rhythm and content driving communications.

Strategic Objectives
Specifically, with regards the backdrop and repercussions of the global Covid-19 virus crisis, we strongly recommend an integrated approach that defines and differentiates the role of the DCT leadership team within the organization and the wider sector, and that reassures audiences of DCT’s ability to navigate the current crisis.

The initial phase and primary focus of this activity is to build a Connected Leadership programme for the Acting Undersecretary. In addition, and in conjunction with our on-going retainer, this work will further enable us to provide broader recommendations for the full DCT leadership team, identifying the appropriate opportunities for share of voice in a consistent leadership narrative.

Undersecretary’s Connected Leadership Programme
Themes & Messaging [DRAFT]

Theme 1: DCT believes in collaboration to confront critical challenges.
DCT Abu Dhabi’s role is, ultimately, to make Abu Dhabi an environment which is conducive to the growth, diversification and development of culture and tourism. This is partly achieved through top-down policymaking and regulation. But perhaps more significantly, it is about creating and sustaining an authentic dialogue which draws together all key stakeholders and allows them to contribute. DCT Abu Dhabi’s leadership sets the tone for this process, establishing relations of trust between different stakeholder groups and maintaining channels of communications open between them. To invest to their full potential in Abu Dhabi, stakeholders must see the Undersecretary as a friendly partner rather than a competitive threat.

Recommended message:

DCT sees itself as a partner, not merely a regulator. By empowering DCT partners with tools, resources, training and regulatory guidance and frequently communicating on all opportunities and challenges, the Undersecretary works to prepare DCT partners for success and long-term growth as well as ensure the viability of the culture and tourism sectors in Abu Dhabi.

In collaboration with the Abu Dhabi government, and our tourism industry partners, the Undersecretary has developed a coordinated response to the spread of COVID-19 consisting of practical, hands-on, technical measures and solutions to contain the spread of the virus, whilst also allowing the industry to be equipped enough to successfully recover from the crisis.
**Theme 2: The role of the DCT Undersecretary is to translate vision into reality**

Now more than ever, DCT Abu Dhabi needs a leader who is comfortable with data, detail and process. Successful resolution of the current challenges will require the smart interpretation of evidence in order to adjust or accelerate response activities. The Abu Dhabi culture and tourism sectors’ recovery from the effects of Covid-19 will be faster and more complete if DCT Abu Dhabi implements exactly the right measures at the right time.

Nevertheless, although DCT Abu Dhabi must be intelligent enough to use data effectively, it must not lose the “human touch”, and neither must it “over-reach” by attempting to predict the future or moving too quickly. Complex scenario planning is important, but DCT’s leadership must at the same time recognise the emotional importance of good messaging.

**Recommended messages:**

The Undersecretary’s practical daily role encompasses deriving business intelligence, forecasts, and consistent scenario planning, in order to ensure the business continuity and recovery of the organization as well as the wider sector during challenging times.

The Undersecretary possesses sound management, excellent operational capabilities and a reliable track record, which means that when he commits to a project or initiative, it can be expected to be successfully completed.

**Theme 3: Abu Dhabi – a leading global destination**

Abu Dhabi has an ambition to be a significant international culture and tourism destination. DCT Abu Dhabi’s job is to bring this about in a manner which (i) supports and respects Abu Dhabi’s cultural heritage and (ii) contributes to wider economic growth and diversification. To that end, DCT Abu Dhabi is a strategically important organisation that positions Abu Dhabi as an exciting emirate and one of the region’s most exciting business, leisure and cultural destinations.

**Recommended messages:**

DCT has been at the forefront in developing the largest and most significant cultural and touristic initiatives in Abu Dhabi such as Louvre Abu Dhabi, Ultra Music, UFC, and Abu Dhabi Race Week as well as important heritage programmes that promote and preserve Emirati history and tradition. All of these have contributed to Abu Dhabi’s image as a dynamic city rooted in its tradition but open to the world.

**Areas of conversation and channel-thinking**

We propose to develop an integrated outreach programme that showcases His Excellency’s experience and unique values, clearly differentiating him within DCT and the wider sector. Below are examples of how we intend to differentiate His Excellency’s profile from a messaging and channel perspective.

**Scope of Work**

We propose an integrated approach to drive the success of our proposed Connected Leadership Programme. Through a direct stakeholder engagement approach, we intend for His Excellency to build meaningful, long-lasting relationships with pertinent sector individuals of influence in the UAE and beyond. Concurrently, we will develop a **6-month digital strategy followed by the drafting of relevant content** that aims to curate a meaningful and well-differentiated online presence for the Undersecretary.

In particular, we advise His Excellency to pay particular attention to senior stakeholders of influence in the culture sector (the cultural community and DCT partners), key stakeholders in the tourism sector, (in particular senior corporate hospitality stakeholders and accessibility partners such as aviation, ports and terminals management), and finally pertinent government agencies outside of the direct remit of culture and tourism sectors.

We will assist DCT with the **development of a stakeholder engagement programme strategy and calendar** guiding the Undersecretary’s communication with key stakeholders over a period of six months from date of activation. A sample of this is below:

**Connected Leadership Programme (digital channels)**

Beyond the Undersecretary’s direct stakeholder engagement efforts, the current challenges facing the industry entail an unprecedented expectation and opportunity for leadership to have an active presence online. The overarching objective towards the Connected Leadership Programme will therefore be to
leverage the role of the Undersecretary, experience and personality to influence key stakeholder groups using social platforms most capable of reaching influential audiences at scale.

**Strategic Objectives**

- Articulate on objectives for digital profile-building for the role of the Undersecretary
- Develop a unified content calendar with topic ideas mapped out for the Undersecretary over the next six months, mapped to the broader communications calendar. (Sample to be provided at a later stage)

| Peer benchmarking report | - Analysis of the Undersecretary's existing online presence across online news, Google Search, Wikipedia, LinkedIn, Twitter, Facebook and Instagram.  
- Analysis of the online presence of x4 industry peers across online news, Google Search, Wikipedia, LinkedIn, Twitter, Facebook and Instagram.  
- We aim to identify level of engagement, volume of mentions and topics discussed by the Undersecretary and his peers.  
- The research findings will be presented via a SWOT analysis and if applicable followers comparison charts and volume over time graphs. |
| Immersion session with the Undersecretary | - Ahead of developing the Undersecretary's social media channels we will host a 30 minute to 1-hour (maximum) session to better understand his personal preferences, views regarding social media, his degree of comfort with the platforms and the persona he wishes to amplify.  
- We will also use this session to take the Undersecretary through the findings of the benchmarking report. |
| Online communications strategy for the Undersecretary | - The strategy will outline the Undersecretary's online position, audience groups to target, channels to activate and a strategy for each, content themes to prioritise and measurement metrics that support the strategy's objectives.  
- The strategy will also outline the Undersecretary's content approach, i.e. frequency, tonality, language usage and post type.  
- As part of the strategy we will develop the community engagement approach to highlight the Undersecretary's tactics to engage with his network on social media.  
- We will also curate a list of social media accounts that are relevant and appropriate for the Undersecretary to follow, either to engage with, to be inspired by or to follow in order to stay updated with trends, local and international news. |
| A 6-month calendar | - The calendar will highlight proposed thought leadership ideas, tactics, planned events (e.g. webinar engagement) and cross-referencing opportunities with DCT’s corporate social media channels. |
| Develop thought-leadership content | - The content can be either long form or short form, and the frequency will be determined as a part of the strategy  
For example: 1x short form piece of content per week, 1x long-term piece of content per month, and 1x short film of Undersecretary speaking to the camera |
| Reporting | - Post activation of his channels, we will work with the Undersecretary's page manager to determine the growth of his presence on a monthly basis. This will ensure accurate data tracking and strategy optimisation. |
The report will capture the Undersecretary’s follower growth, follower demographics, level of engagement and areas of improvement. Please note that data can be limited depending on the platform.

**Scope of work exclusions**

- Brunswick will not manage the Undersecretary’s page or have direct access to his profile
- Brunswick will not monitor the Undersecretary’s social media pages
- Brunswick will not publish content on behalf of the Undersecretary or community manage his social media profiles

---

**Activities:**
- Based on the insights gathered in the research phase we will articulate a number of options for review and consideration.

Dear Brunswick and Merchant Cantos teams,

I would like to confirm that the proposal for the Brand Strategy & Architecture has been approved. We were hoping to initiate this process last week and are already behind schedule (apologies for the delay), which means we will have to kick this process off on Monday.

Please note that Anood will be managing this process with me and it would therefore be appreciated if you could ensure she is copied on all communication relating to this project. She will be on leave for a week (starting Tuesday), during which time Sara can assist.

Looking forward to scheduling Monday’s Kick-off meeting today.

Regards,

Dana Chehayeb
