Subject: Today at 1:00: Keystone/Polling/Media Call

Folks –

The Province of Alberta, Canada commissioned JDA Frontline Partners to conduct a national survey of U.S. voters gauging their opinions on the Keystone XL pipeline and other climate issues. The N=1400 sample survey was fielded from 1/8/21 to 1/18/21 and has a margin of error of +/- 2.6%. Attached is a memo highlighting topline findings of the research and a document with the raw data. **These findings are reportable now.**

JDA Frontline Partners will also be hosting a **polling briefing for interested media today at 1:00 pm EST**. If you are interested in joining please let me know and we will send you a link to the briefing.
