Did you know that Germany is a global powerhouse when it comes to research & development? 🌐🔬

👉 DE Germany's reputation for dynamic and innovative R&D has allowed it to be ranked high on the list of leading innovators by the European Innovation Scoreboard – an instrument used by the European Commission to monitor innovative performance of European countries.

👍📍 According to a survey by the American Chamber of Commerce in Germany, 91% of German companies think of Germany as a "good" or "very good" location for R&D.

What are some ways Germany stands out as an R&D location?

📄🔍 Patents: Germany leads Europe in triadic patent applications. In 2020, 20,056 German patent applications were approved by the European Patent Office

🔧💰 R&D Spending: No other country in Europe invests a greater amount of money in R&D than Germany. In 2019, public and private spending on research projects reached EUR 110 billion

👨🔬👩🔬 R&D Personnel: Germany is home to the largest research community in Europe: 24% of scientists in the EU live and work in Germany
