us Investment announcement!

Harness the power of [hashtag#AI](#) to simplify your life, seamlessly charge your [hashtag#EV](#), and enjoy smooth train journeys. We're proud to announce an investment of \$500 million in U.S. manufacturing for critical [hashtag#infrastructure](#) in 2023, ensuring all these conveniences are not just possible, but also more efficient.

We are proud to invest \$150 million in a new state-of-the-art manufacturing plant in Dallas-Fort Worth. This high-tech facility will produce cutting-edge electrical equipment, and will play a crucial role in powering American data centers and critical infrastructure. With the help of Siemens' advanced manufacturing tools, including [hashtag#DigitalTwin](#) technology and high-tech automation, we are confident that this plant will enable the accelerated growth of U.S. data centers that are crucial to the adoption of [hashtag#ArtificialIntelligence](#).

In earlier news, we unveiled a \$220 million investment in a rail manufacturing facility. Moreover, we're channeling funds into two electrical products manufacturing plants

situated in Grand Prairie, TX, and Pomona, CA. With these steps, we're thrilled to bring on board 1,700 new talents, expanding our [hashtag#TeamSiemens](#) family in the U.S.

This is part of our €2 billion global investment strategy that enables our customers all around the globe to stay competitive, resilient, and sustainable
