

Delegation of German Industry and Commerce in Washington, DC

Germany's [hashtag#automotive](#) industry stands at the forefront of global excellence, making it yet another reason why you should [hashtag#InvestInGermany](#)

As one of Germany's leading industries, the automotive sector is a gateway to innovation, excellence, and global expansion. With over 130 years in automotive innovation, Germany continues to influence design, technology, and the future of mobility.

What sets the German automotive industry apart from others?

By 2030, the global demand for German and European electric battery technologies is expected to create a EUR 60 billion market

In 2020, Germany had 400,000 new electric car registrations

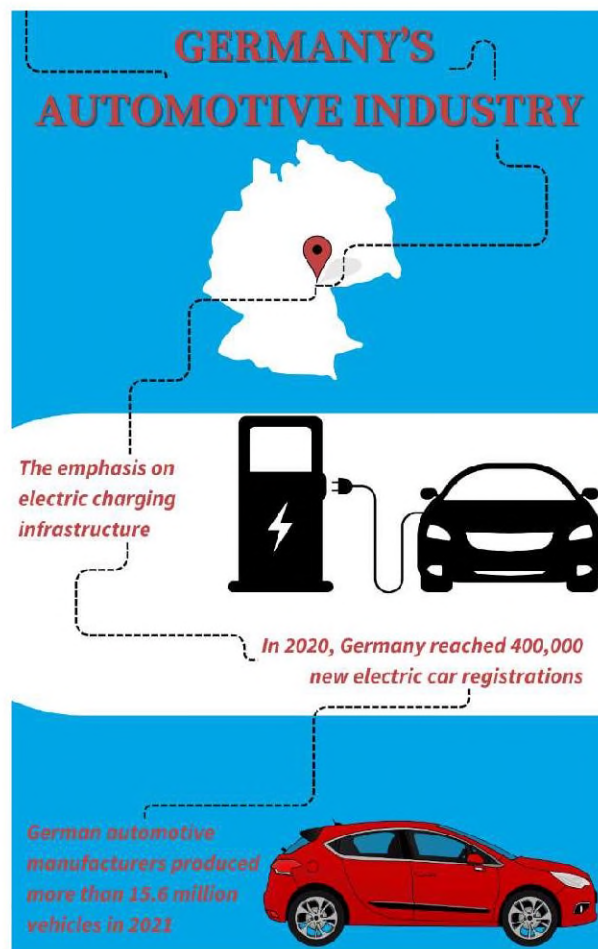

Germany's passing of a law stipulating the inclusion of EV charging infrastructure and parking spaces in all new and refurbished buildings

7 out of 10 premium cars produced in Europe are manufactured in Germany
