

[Delegation of German Industry and Commerce in Washington, DC](#)
[#InvestInGermany](#)

Industry 4.0 has become one of the leading industries across the globe! Germany's industry 4.0 sector has embraced the future of [#innovation](#) and has become a game-changer for the [#manufacturing](#) industry.

What exactly is industry 4.0 and what's all the talk about?

Industry 4.0 fuses together traditional manufacturing with cutting-edge technologies like [#AI](#), Internet of Things ([#IOT](#)), and data analytics. This [#digitaltransformation](#) is reshaping the way we produce and consume goods.

Industry 4.0 has influenced many areas of Germany's market, such as:

- Automotive Industry – accelerating the future of mobility
- ICT and Software Industry – Germany is home to one of the largest ICT markets and the single largest software markets in Europe
- Machinery and Equipment Industry – the industry has invested EUR 10 billion+ in industry 4.0 from 2015-2020 alone
- Microelectronics Industry – Germany ranks at the top of semiconductor production within Europe, contributing to the major microelectronics force in Germany
