The global economy continues to expand at a moderate pace, shaped by rising geopolitical tensions, increasing trade policy uncertainty, and ongoing conflicts—particularly in the Middle East. These dynamics are placing additional strain on international supply chains, influencing energy prices, and dampening investment activity.

To better understand the outlook for German companies abroad, the global AHK network is conducting a short survey on current conditions and future expectations.

We invite you to participate—your input will help shape a clearer picture of the global business environment. The anonymous survey takes just five minutes and is open until April 10, 2026.
