Earlier this week, DGIC hosted an exclusive breakfast roundtable with representatives from the Ministry of Economic Affairs, Tourism, Energy and Climate Protection of Rhineland-Palatinate (Rheinland-Pfalz) and companies from the German state.

The discussion provided an opportunity to exchange perspectives on current economic and policy developments, transatlantic business cooperation, and opportunities in the U.S. defense market. Participants discussed the evolving defense industry landscape, market entry opportunities for German companies, and potential areas for German-American collaboration.

Facilitating open dialogue between industry representatives and key stakeholders remains an important part of DGIC's work to strengthen economic ties between Germany and the United States.

Thank you to all participants for their engagement and valuable contributions to the discussion!
