🌐 Legal Victory for Bruno Manser Fonds in Defamation Case

Congratulations to my Swiss client, Bruno Manser Fonds (BMF), after the Basel Civil Court dealt a significant blow to its adversary in a six-year defamation lawsuit that BMF has been defending. The court dismissed key legal claims by (among others) the daughter of a Malaysian politician linked to the deforestation of Borneo rainforest. The court found that BMF had not made the allegedly defamatory statements that the plaintiffs sought to ban. This decision is a milestone for BMF's efforts to expose environmental crimes and corruption.

I had the honor of accompanying BMF into the courtroom during its August 2023 trial, alongside members of the Penan community from Malaysia—who traveled over 10,000 miles to show their solidarity. Their support for BMF against this legal attack was deeply moving.

A special acknowledgment to **Andreas D. Blattmann** from **Quadra Attorneys at Law Ltd.** of Zurich for their defense of BMF.
