Subject: Re: UNDER EMBARGO: 2024 FII Priority Compass Report

Hi [REDACTED] – Hope you are doing well.

Reaching out to you as [REDACTED] is OOO. I work with FII, the global thinktank and nonprofit which is going to be releasing its PRIORITY Compass report on **Tuesday, October 29st at 3:00 am ET during FII8 in Riyadh.** We would love to work with you on an embargo basis so that you could have an early look on the findings, which surveys **global citizens representing 62.5% of the global population** and their thoughts on life satisfaction levels, technological developments and preparedness, healthcare deserts, and how specific countries are addressing the global challenges in society.

Please let me know if you agree to this embargo and I can share additional information.

Thanks,

[REDACTED]

Subject: Peter Diamandis on [REDACTED]?

Hi [REDACTED] –

Hope you're well! Was wondering if you're looking to fill any upcoming segments on [REDACTED]. If so, I was wondering if you might be interested in having [Dr. Peter H. Diamandis](#), **Founder of X-Prize Foundation & Singularity University and Board Member of the Future Investment Initiative Institute (FII)**.

Peter is a thought leader on growing technologies and has founded over 20 companies in the areas of longevity, space, venture capital and education. He is also cofounder BOLD Capital Partners, a venture fund with \$250M investing in exponential technologies.

Richard would be a great subject expert to discuss his outlook for emerging technologies and global markets can prepare for AI integration. He can cover:

- AI as a driver not only for economic and technological innovation, but as a fuel for professional organization and leadership changes within job categories
- The ethical concerns with AI's rapid adoption into the workplace, including language barriers, job displacement and technological access
- Where FII Institute is seeing opportunity for investment in the AI/robotics sector

What do you think of having Peter as a guest? Let me know!

All the best,

[REDACTED]

Subject: Peter Diamandis emerging tech outlook?

Hi [REDACTED] –

Hope you're well! Getting in touch to offer a conversation with [Dr. Peter H. Diamandis, Founder of X-Prize Foundation](#) – a global non-profit organization that designs and hosts incentivized competitions for entrepreneurs and companies to develop groundbreaking technologies, and [Singularity University](#), a business incubator that counsels leaders on exponentially growing technologies. Peter is also a Board Member of [Future Investment Institute \(FII\)](#), the global thinktank and nonprofit focused on creating a positive impact for humanity.

Having founded over 20 companies across longevity, space, venture capital and education, Peter is well positioned to discuss his outlook for emerging technologies and how global markets can prepare for AI integration. For example, at XPRIZE/Singularity, he advises the world's top entrepreneurs and business leaders on how they can leverage these technologies to bring about breakthroughs for the benefit of the global community. This is particularly relevant in light of [growing concerns among global policy makers around AI regulation](#) and how to responsibly use this technology while not stifling progress. His focus areas include:

- How AI is a driver for economic and technological innovation
- The ethical concerns of AI and its rapid adoption
- Where FII Institute is seeing opportunity for investment in the AI/robotics sector

What do you think?

All the best,
