Hi [REDACTED] – Hope you are doing well! Touching base as you mentioned the agenda may be in development by now and wanted to gauge your interest in adding executives from the global thinktank [Future Investment Initiative Institute](#) to the speaking line up.

Specifically, [Dr. Peter H. Diamandis](#), **Founder of X-Prize Foundation & Singularity University and Board Member of the Future Investment Initiative Institute (FII)** would be a great guest to talk about the future of technological integration and advancement in industries like healthcare, longevity, space and education.

Peter has founded over 20 companies including BOLD Capital Partners, a venture fund with \$250M investing in exponential technologies. He can speak to the investment landscape across sectors and how regulation, ethics and recent events are impacting progress towards a more technologically sound future. He is also no stranger to the stage, moderating and participating in several panels at this year's FII flagship conference in Riyadh.

Happy to share some further information on him as the agenda takes shape – looking forward to your thoughts!

Thanks,

[REDACTED]

That's great [REDACTED] – happy to reconnect later this month. I'll be in touch and appreciate you getting back to me!

Thanks,

[REDACTED]

Thanks [REDACTED], thanks for thinking of [REDACTED]. Possible to connect later this month? We are still sketching out our What's Next Summit goals for the program this year but happy to touch base as we get closer.

Hi [REDACTED],  
Thanks for reaching out early. We haven't started booking for this event yet but we will be soon. Who do you have in mind? I'm adding [REDACTED], our lead booker to this conversation.

Thanks,

[REDACTED]

Hi [REDACTED] –

I was looking into the [REDACTED] What's Next Summit from last year and wondering if planning

for 2025 is underway yet? Would love to connect with you on some potential speakers if so as the agenda takes shape. I work with a global CEO who would be a great fit as a moderator or panelist as he can speak to a variety of topics across sustainability, healthcare, tech and education as it connects to global policy and economics.

Let me know what the process looks like and would love to speak with you or the team about how to best work together.

Thanks,
