Hello Hello! 🌞 See you soon...
Just so you know, nothing really
changed in my flow but wanted to
start with AI and the DeepSeek
News. Just from a point of view
that it's displaying the geopolitical
battle lines for AI again and
competition for something that
desperately needs global co-
operation. Newsy and a perfect
way to talk about FII's ambitions!

Hi there - so very excited to hello
in person!!

Great thx for the heads up, that
makes sense to me...Without
having spoken with him yet expect
can't go deep on that news but its
a great hook and opp to bridge to
broader coop as you note!
