Subject: Wave's data platform oceancentral.org honored with a 2026 Webby Award - FII Institute

Hi [REDACTED]

Reaching out to share that Wave, a collective action platform powered by the [Future Investment Initiative \(FII\) Institute](#), has been recognized with a [2026 Webby People's Voice Award](#) for its ocean data platform, Ocean Central.

Founded by Her Royal Highness Princess Reema Bandar Al-Saud, Saudi Arabia's Ambassador to the United States and designed to support ocean regeneration by 2050, the platform aggregates geospatial data and scientific insights to track ocean health and identify actionable pathways for marine ecosystem restoration.

A couple of highlights on Wave and the Ocean Central platform include:

- Tracks ocean health using geospatial data and contextual insights
- Built on the "Rebuilding Marine Life" framework outlining how oceans can be restored within a generation
- Provides actionable insights to support interventions across sectors

Happy to answer any questions you may have.

Best,

[REDACTED]
